

Behavior, Ecology and Evolution Symposium

ASHOKA
UNIVERSITY

The Behavior, Ecology, and Evolution (BEE) symposium at Ashoka aims to bring together researchers and students working in these intertwined fields. The event will be a vibrant space for discussions on topics ranging from ecological dynamics and evolutionary processes to behavioral adaptations. The symposium aims to promote the exchange of ideas, build connections, and explore future collaborations within the research community. It will feature presentations from faculty members at Ashoka University, postdoctoral fellows, graduate students, and postgraduate and undergraduate students. There will be special research talks and discussions led by evolutionary and behavioral biologists from IISER-Mohali and Shiv Nadar University.

26th and 27th April, 2025
